

MUHAMMAD JASIM ALI

DATA ANALYST

+92 317 7580357 • syedjasim76@gmail.com • [Portfolio](#) • [LinkedIn](#) • [GitHub](#) • Karachi, Pakistan

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of expertise architecting Power BI dashboards and Excel automation solutions for real clients. Proven track record of eliminating 60–70% of manual reporting effort and delivering actionable intelligence that drives confident business decisions. Seeking a full-time Data Analyst role at a software house or technology firm in Karachi.

CORE COMPETENCIES

BI & Reporting	Power BI (DAX, Data Modeling, Drill-through, Bookmarks, Row-Level Security), Tableau, Looker Studio
Advanced Excel	Power Query, Pivot Tables, VLOOKUP / XLOOKUP, Dynamic Arrays, Macros & Automation
Analytics	KPI Framework Design, Trend & Variance Analysis, Statistical Reporting, Dashboard UX
Tools & Stack	Git, Google Analytics, Google Sheets, Microsoft Power Platform

PROFESSIONAL EXPERIENCE

Data Analyst · Freelance — Client Engagements January 2024 – Present | Karachi, Pakistan

- Architected 10+ end-to-end Power BI solutions for clients in retail, HR, finance, and operations — spanning data ingestion, transformation, modeling, and visualization
- Engineered automated reporting pipelines that eliminated 60–70% of manual effort, enabling stakeholders to redirect focus toward higher-value strategic activities
- Executed rigorous data profiling, cleansing, and modeling on datasets exceeding 50,000 records using Power Query
- Partnered with cross-functional stakeholders to translate business requirements into precise, executive-ready analytical deliverables — delivered on time, consistently

SELECTED PROJECTS

E-Commerce Sales Dashboard Power BI · SQL — 50,000+ records, 5 regions. Identified product bundling insights driving 8% AOV uplift.	AQI Environmental Analysis Power BI · Geospatial — AQI trends across Indian states with health-impact zone mapping.
HR Analytics Executive Dashboard Power BI · DAX — Replaced 5 manual Excel reports with one self-refreshing dashboard for leadership.	Coffee Shop Sales Dashboard Power BI · Excel — Revenue, product, and peak-hour analytics for non-technical stakeholders.
